"We Bring Simplicity to Aviation"

We at Aero Design Global have once more successfully on behalf of our client a American based Leasing Company, supported purchase/delivery of a 2010 Vintage B737-82R aircraft from an operator outside of EASA environment and subsequently successfully supported the delivery to a new Lessees. This aircraft was re-delivered to an operator located in Romania which is inside the EASA environment. ADG is glad to have been a part of this transaction to our friends and colleagues at Blue Air.
